The Surprise Stores Begin To-morrow Their Annual Sale

Offering Extraordinary Values in
Men's and Boys' Guaranteed
O'coats & Suits

Every garment included in this sale was made in our own tailor shop and is guaranteed the same as if offered at regular price. This is a genuine clearance of surplus stocks on hand and any purchaser not entirely satisfied may have his money back for the asking.

Overcoats & Suits \$9.85
Of the regular \$15
grade, on sale now at

Wonderful values. Any garment in the lot would cost \$15 elsewhere—and in some stores \$18. The latest and most wanted materials are the exact duplicates of those of the custom tailors; the models include every style that is popular, including the new French design with belt all around.

We hold these clearances every year—and they offer the one opportunity of the season to save money on guaranteed and dependable clothes. All sizes in this lot, but not in every pattern.

Overcoats & Suits \$12.35
Of the regular \$17.50
grade, on sale now at

Every garment is guaranteed the same as if it were sold at regular price—and you will find practically the same assortment of patterns to choose from.

There are smart and snappy weaves for the young fellows and the more conservative designs for men of quiet tastes. The popular belted effects in both overcoats and suits, as well as patch pocket and slanting pocket models. All sizes in the lot, but not in every pattern.

Overcoats & Suits \$14.85
Of the regular \$20
grade, on sale now at

This is an unusually fine collection of Overcoats and Suits. Not only are the values unusual, but also are the patterns and weaves. Every garment is hand tailored, and made of fine, serviceable and stylish materials, guaranteed to hold their color and wear well. All the latest models, including the new French style, patch pockets, and slanting pockets are included in a good variety. Exceptionally fine garments.

Men's Overcoats \$7.50
Of the regular \$12.50
grade, on sale now at

We haven't a full assortment of patterns in every size, but there is a big range of sizes in the lot. They are splendid coats in new and staple models—and you'll find your size in one good pattern or another; for there are all sizes in the lot. Double-breasted box coats, Wellington single-breasted ulsters, long coats, short coats and medium styles. Almost every style is included in one size or another. Money back on request.

\$1,000,000 PROFIT MADE BY ONE FIRM ON SHIPS FOR U. S.

Clinchfields Gained \$420,000
on Sale of Four and Com-
mission on Contracts.

WASHINGTON, Jan. 4.—Profits amounting to more than a million dollars were made by the Clinchfield Navigation Company in a deal involving Government shipbuilding contracts, according to testimony today before the Senate Commerce Committee investigating the shipbuilding program.

This information was disclosed by Theodore E. Ferris, chief constructor for the Emergency Fleet Corporation, and by a report by a district officer of the Shipbuilding Board.

The Clinchfield Company, it was declared, sold to the Government four ships under construction for the company in the yards of the Sloane Shipyard Corporation of Seattle, making a profit of \$420,000 and later obtained for the Sloane Corporation contracts for twelve more ships on which it made a 5 per cent. profit. Senators questioned Mr. Ferris closely as to the reason for letting

contracts for the twelve ships to the Clinchfield Corporation, an owner but not a builder of ships, and expressed dissatisfaction over a deal by which the corporation sold to the Government the four ships at a price as much higher than it was paying for their construction.

Mr. Ferris declared he knew nothing of the financial arrangements, but admitted recommending the Clinchfield Corporation to Gen. Goethals in a letter.

First of New Cuban Sugar Crop Arrives.

PHILADELPHIA, Jan. 4.—The first cargo of the new crop of Cuban sugar consigned to this country arrived here today on a Norwegian steamer. The sugar is for the McAlister Sugar Refining Company. More than 4,000,000 tons of Cuban sugar is now available and refiners say the market soon will be supplied with all the sugar needed.

COAL AND WATER FAMINES CLOSE JERSEY PLANTS

Suburban Traffic Still Disor-
ganized and City Lights
Are Cut Off.

Coal and water famines were still causing suffering to-day in Jersey City and Hoboken, and making life

for the commuter a series of hard-

ships. Jersey City spent its second enforced lightless night last night. In North Jersey there were no street lights. At Paterson somebody stole four carloads of coal. It had been set aside by the Erie for certain factories, and when a switch engine was sent early to-day to shove the cars into the factory yard, every lump of coal had disappeared.

The shortage of railroad facilities has forced many commuters to move to New York. At the stations there are daily fights in the struggle for a place on overcrowded trains. The chief cause of the disorganized train service is lack of water for locomotives. The Erie yesterday posted a bulletin that all suburban schedules

were annulled and trains would be operated whenever possible.

Several of Jersey City's largest plants have closed entirely or in part for lack of water, or of coal. There is so much suffering among the poor there that coal has been commandeered from schools and distributed among the more needy.

TOILERS TO BE DIRECTED TO WHERE THE JOBS ARE

Organized Labor Takes Steps to
Make Government Conscription
of Workmen Unnecessary.

WASHINGTON, Jan. 4.—Organized labor has started a movement to voluntarily draw the industrial forces of the country into jobs where the Government needs them.

This decision has been reached, it was officially announced to-day, to demonstrate that conscription of labor—hinted at as a possibility by President Marshall General Crowder in his report to Secretary Baker—will not be necessary. The United States Public Service Reserve of the Labor Department is co-operating with labor and enrolling thousands of volunteers for specialized work.

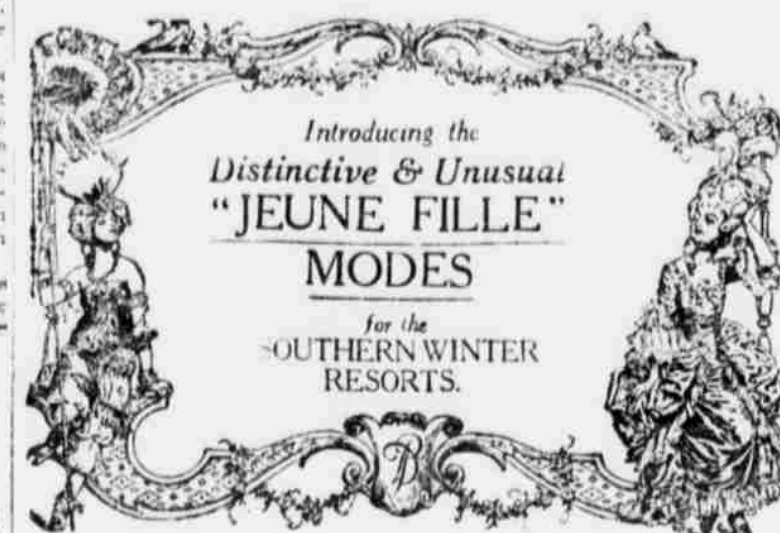

DRAFT WATER POWER BILL.

Secretaries Baker, Lane and Hon-
ton Join in Proposed Legislation.

WASHINGTON, Jan. 4.—A bill for the development of Federal water powers on navigable streams, public lands and national forests, designed to secure extensive development of those resources with due regard to both public interests and interests of the developers, has been drafted by the War, Interior and Agricultural Departments. It embodies fundamental principles of
